

DDG (Crop Science) inaugurates Biotechnology Annexe – 19 January 2012

Dr. Swapan Kumar Datta, Deputy Director General (Crop Science) inaugurated the newly constructed Biotechnology Annexe wing on 19th January 2012. This wing will ease the space congestion for the research wing of the Biotechnology and Plant Breeding sections of the Directorate. It will also connect the old building with the new building built during 1998. Walking through the facilities, Dr. Datta, remarked that Science needs to move into the new facilities and deliver the goods awaited by the rice farmers and the country.
